## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1, 4, 5 and 15 are allowed.

2. The following is an examiner's statement of reasons for allowance:

The rejection under 35 USC 103(a) is withdrawn in light of applicant's argument and declaration filed March 26, 2004 and April 22, 2004, respectively. The examiner finds the declaration filed April 22, 2004 supports applicant argument that compounds (1b) and (1c) are not products of the prior art process. According to the declaration the reaction condition, i.e., the combination of reaction temperature, catalyst and solvent, has to be suitable for the production of the desired compound. The examiner agrees that the determination of said combination is not obvious based on the prior art and there is no motivation to make said changes as recited by the instant claims in order to obtain said compounds.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
